

# SHAMINI G S

Software Developer | Full Stack Developer | .NET Developer

Chennai, Tamil Nadu, India | +91 9176325607 | Shaminigs25@gmail.com | linkedin.com/in/shaminigs

## PROFESSIONAL SUMMARY

---

Results-driven Software Developer with experience in .NET C#, SQL Server, Next.js, Python, AWS, ERP customization, and Generative AI solutions. Skilled in SDLC, full-stack development, Database optimization, and reporting tools. Proven ability to build scalable applications, automate workflows, and enhance business efficiency.

## TECHNICAL SKILLS

---

- Programming Languages: C#, Python, JavaScript, SQL, HTML5, CSS3
- Frameworks & Technologies: .NET Framework, React.js, Next.js, REST APIs
- Database Management: SQL Server, Stored Procedures, Database Design, Query Optimization
- ERP & Reporting: Focus ERP, SSRS, Crystal Reports, Power BI
- Cloud & DevOps: AWS (EC2, S3, RDS), Git, GitHub
- AI & Data Tools: LangChain, Pinecone, Hugging Face, OpenAI, Vector Embeddings
- Practices: Agile, SDLC, Debugging, Testing, Deployment

## PROFESSIONAL EXPERIENCE

---

Software Developer | Pondy Oxides and Chemicals Ltd., Chennai |

Apr 2025 – Present

- Customized Focus ERP modules for Finance, Inventory, Sales, and Logistics using .NET C# and SQL Server.
- Developed SQL tables, stored procedures, and backend business logic to improve operational performance.
- Built responsive UI components using React.js, Next.js, JavaScript, HTML, and CSS.
- Designed and automated enterprise reports using SSRS and Crystal Reports.
- Created Power BI dashboards for KPI analysis and business insights.
- Automated repetitive internal tasks using Python scripts.
- Managed end-to-end SDLC including documentation, testing, deployment, troubleshooting, and user training.

AI Developer Intern | Servion Global Solutions Pvt. Ltd., Chennai |

Jan 2024 – Oct 2024

- Developed an AI-powered RAG chatbot using Python, LangChain, Pinecone, Hugging Face, and OpenAI.
- Improved customer query resolution accuracy to 80% through NLP optimization.
- Reduced retrieval time by 40% using chunking and vector embeddings.
- Enhanced response relevance by 85% using semantic similarity search and indexing.
- Collaborated with agile teams for design, development, testing, and deployment.

## KEY PROJECTS

---

### Full Stack Cafe Management Web Application

Developed a full-stack Cafe Management System to streamline menu management, billing, inventory tracking, and order processing. Designed and managed the backend database using SQL for efficient data storage and retrieval. Built a responsive user interface with HTML and CSS to improve operational efficiency and user experience.

### Static Website Deployment using AWS S3

Designed and developed a static website using HTML and CSS for web-based content delivery. Deployed and hosted the website on AWS S3, showcasing cloud computing, storage management, and deployment skills. Configured hosting settings to ensure reliable accessibility, scalability, and efficient online performance.
